

Approved WEEE status

Comply Direct is delighted to announce that it has been granted approved WEEE status from the Environment Agency. As a fully approved compliance scheme, Comply Direct can now offer low cost and hassle-free membership to all non-household (B2B) and household (B2C) obligated producers across all categories of WEEE.

Remember that the deadline for obligated producers of WEEE signing up to a compliance scheme is 15 March. Visit www.complydirect.com to find out more.

The membership terms and conditions for Comply Direct and the membership fees have now been finalised and are available on our website – just click on the compliance tab.

When registering with Comply Direct online you will be required to provide details of your unique producer identification marks to be displayed on your obligated EEE and also the weight in tonnes of the EEE your company placed on the UK market in 2006, by each of the WEEE categories and with household (B2C) and non household (B2B) split.

Seminar success

Comply Direct is also pleased to report the success of its free WEEE seminars that have been taking place across the UK. If you would like further information on where and when you can attend one of these essential seminars then visit www.complydirect.com.

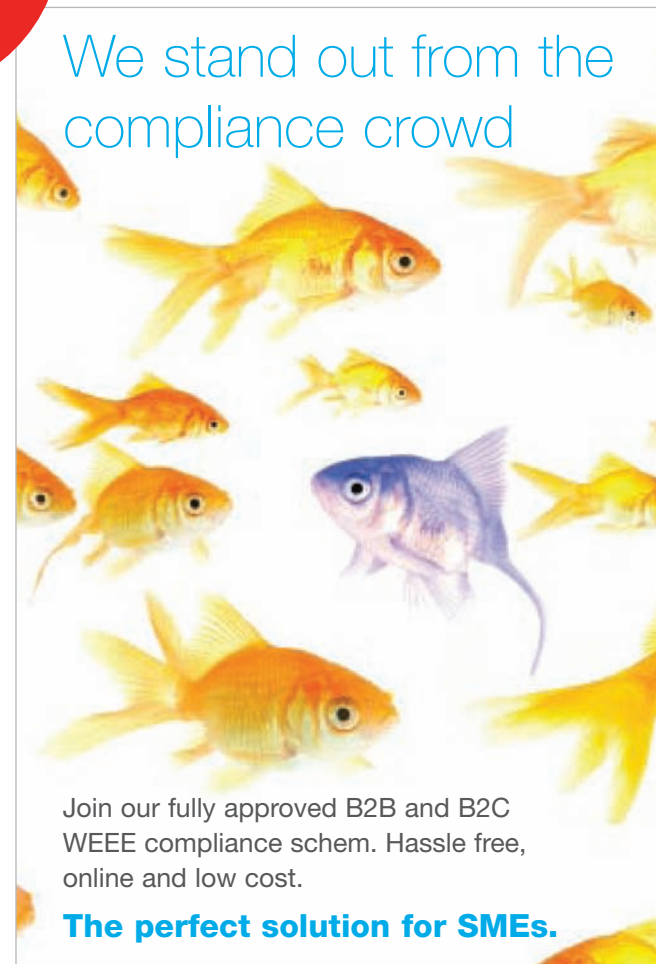

“at last some clarity on WEEE given the levels of uncertainty experienced to date”

“we would have no hesitation in joining Comply Direct as you appear to be well positioned to offer a low cost and reliable compliance service for our business”
